**Product Detail**

Truck Side Curtains are an advanced development for greater efficiency in transportation of cargo. Side Curtains are designed to provide fast and easy access to your cargo in the body of your vehicle, while keeping it secure and sheltered.

Truck Side Curtains are a combination of a flatbed transportation, allowing for unloading from the side of your vehicle, with the added protection you would expect from a dry van, combined together to provide an ideal method of transporting large loads, while protecting your goods from the elements in a convenient and efficient way. The sides contain retaining straps which allow the curtain to be pulled back to one side on release, allowing for convenient loading or unloading of cargo.

#### Product Detail

Material: Woven & Coated Clear Polyethylene

Fabric Weight: 2.5 oz. sq/yd

Scrim Mesh Count: 8 x 8

Denier: 1000D X1000D

Color: Clear to White (80% translucent)

Finish: 100% Waterproof, UV and Mildew Resistant

Tie Ropes: 48 inch Length, One for Every Grommet / or None

Grommets: Every 36 inches Around Perimeter / Or None

Size: 12'x20',15'x20',15'x750',20'x30',20'x100',30'x50',custom made

Application: Perfect for Hoarding New Construction or Renovations and Other light duty applications

**BLX-I001E**

**Scaffold Sheeting**

**SKU No.**

BLX-I001E.001

**Product Detail**

Material: HDPE

Material Thickness:12Mil,14Mil,16Mil

Size:7'4"x136',8'6"x100',13'x100',14'x100'and 20'x100'

Bands Color:Blue ,Black,or white eyelet bands

Pre-set eyelet holes spaced every 4" inch on eyelet bands

Feature:

- Premium grade string reinforced polyethylene sheeting
- Manufactured with reinforced eyelet bands for fastening bungee ties
- Highly tear resistant reinforced sheeting,Water resistant, mildew resistant
- Remains flexible in winter conditions,UV treated,Non Flame Retardant (Non-FR)
- Flame Retardant (FR) meets NFPA 701 Test Method 2

Benefits:

- Provides a total weather protection enclosure and a containment for dust & debris
- Increases temporary heating efficiencies.Easy to install & remove with Eagle bungee ties
- Handles well in low or extreme temperatures.Allows sunlight to transmit through

**BLX-I001F**

**1/4"Scaffolding Enclosure & Debris Safety Netting**

**SKU No.**

BLX-I001F.001

**Product Detail**

Safety Debris Netting is a 1/4"knitted mesh material commonly used for guardrail debris protection,scaffolding enclosures or visual safety debris net barriers. Safety Debris Netting is made from high density polyethylene (HDPE) with UV inhibitors for maximum life expectancy.The open knitted mesh design allows for air flow yet still provides containment of small and chunk debris. Safety Debris Netting rolls include reinforced hemmed edges for fastening purposes allowing an easy, safe and secure installation.

Material:High density knitted polyethylene mesh (HDPE)

Mesh Size: 1/4" mesh openings

Color: Orange,Yellow,Red,Black,Green

Size:4'x150',5'6"x150',8'6"x150',8'x150',6'6"x165',10'x165'

Feature:

- Lightweight,allows air to pass through
- Edges are hemmed and reinforced for fastening,UV treated
- Flame Retardant available, meets NFPA 701 Test Method II
- Guardrail netting,floor-to-floor netting,scaffold netting

## BLX-I001G

### 1/16" FR Safety Debris Netting

#### SKU No.

BLX-I001G.001

#### Product Detail

##### Features

- Made from 100% high quality virgin material
- 1/16" Standard Grade and 1/32" Premium Grade
- Reinforced eyelet holes for fastening
- Size: 4'x150', 10'x150', 8'x150', 8'6"x150', Custom
- Color: Blue, Orange, Black, Green, Yellow
- Weight: 50gsm to 180gsm
- UV protection Tear resistant, Mold and mildew resistant
- FR = Flame Retardant NFPA 701

##### Benefits

- Jobsite protection, Worker and pedestrian safety
- Drop object prevention, Passive fall protection
- Scaffolding enclosure, Construction windscreen
- Visual barrier for hazard safety, Will not unravel when cut
- Allows air to pass through, Remains flexible in cold weather

##### Applications

- Scaffolding enclosure, Vertical debris protection
- Guardrail safety barrier, Construction windscreen
- Demolition and debris control, Building wrap, Floor-to-ceiling netting, Event netting and stage fencing, Shade cloth mesh

## BLX-I001H

### Builder's Roof Tarp

#### SKU No.

BLX-I001H.001

#### Product Detail

Fabric: Heavy Duty & Extra Heavy Duty polyethylene

Weight: 220gsm, 250gsm, 260gsm, 280gsm, 290gsm, 300gsm, 330gsm

Color: Blue, Green, White

Size: 2.5mx3m, 2.5mx5m, 3.5mx5m, 4.5mx9m, 5mx6m, 9mx9m, 10mx12m, 1 range of sizes up to 30x50m

##### Feature:

High quality double sided Coating

Cost effective option

Welded seams, rope reinforced edges, UV stabilised, Waterproof Tarp

Reinforced solid brass eyelets every meter.

Some sizes available with webbing loop handles for easier handling & tie down

Application: Waterproof Roof Tarp, Roof Covering or Roof Sheet Cover

## BLX-SP001A

### Pool Winter Cover

#### SKU No.

BLX-SP001A.001

#### Product Detail

The Pool Winter Pool Cover will protect your pool from winter elements. This is a solid winter pool cover that will not allow water to pass through its material. The Winter Pool Covers is constructed of heavy-duty polyethylene. All seams are heat sealed for better performance. The blue topside of this pool cover is coated to prevent UV damage. Please order by your pool size, as the overlap goes beyond the pool size listed. This cover includes a four-foot overlap. If you have a very large top rail, please consider a larger pool size. This cover should be able to comfortably float on the pool water without excessive stress. This cover is not meant to be used as a debris cover during the swimming season. This winter pool cover is intended to be used during the off-season. This cover is meant for traditional above ground pools with a traditional top rail. Includes a winch and cable that should be used to secure your pool cover through the grommets around the perimeter of the pool cover.

Pool Size: 12ft,15ft,18ft,21ft,24ft,30ft,33ft,custom made

Heavy-duty polyethylene material - All seams are heat sealed for better performance

4 foot overlap - Includes winch and cable, which should be used to secure the cover through the grommets

**Safety Inground Pool Cover**

**SKU No.**

BLX-SP001B.001

**Product Detail**

**Material:** High Strength PP Material: This inground pool cover enjoys a good reputation for its robust performance. Made of soft and tough polypropylene, the pool cover has high temperature and abrasion resistance. Double-strapped and triple-stitched throughout, our solid pool safety cover will protect your family for years and years.

**Color:** Blue,Green,Black

**Size:** 16ftx32ft,18ftx34ft,20ftx40ft,any size is custom.

**Feature& Function:**

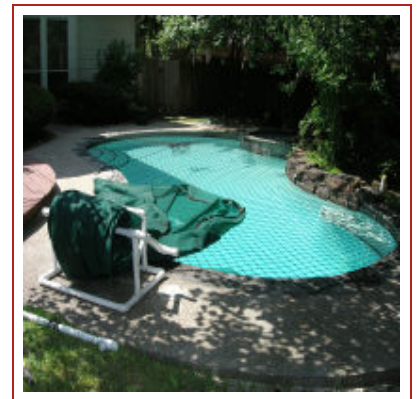

**Complete Hardware Included:** Comes with brass anchors, stainlesssteel springs, and installation tools for easy assembly. Drill and tamp style brass anchoring system permanently secures anchors in concrete. The length of the rope is adjustable between 17.7-25.6 ft / 45-65 cm, according to the size of your swimming pool.

**Children/Pets Care:** Strong tensile toughness of this swimming pool cover can effectively prevent children, domestic animals, and pets from accidental drowning and enhance security. In addition, this cover makes excellent contributions to reduce water evaporation and keep water warm in winter.

**Powerful Mesh Design:** Tight mesh adopted by our pool cover lets water pass through easily for the best drainage.

**BLX-SP001C**

BLX-S0011D.001

**BLX-S0011D**

**SAP Flood Control Bag|Absorbent flood barrier Bag**

**SKU No.**

BLX-S0011D.001

**Product Detail**

Material:Canvas,Non-woven fabric,jute  
Size:60cmx40cm,custom

This flood protection bag requires no sand,which can directly absorb water for expansion in 3 to 5 minutes,quick and convenient to meet emergencies.

This sandbag comes with a rope in the package, the water barriers for flooding are easy to pack and store when not in use,just like ordinary bags by folding flat and using the rope to fix and pack,which would not occupy your space.

The flood control barrier is made of linen fabric and stuffed with absorbent resin, which can allow water to flow in quickly to form a solid and heavy barrier.

The sandless flood protectio bag can be placed in a dry place after using,and will gradually be evaporated and deflated, then it can be reusable next time,but the effect may not be as good as the first time.

**BLX-IB001A**

**Ground Thawing Blanket**

**SKU No.**

BLX-IB001.001

**Product Detail**

Ground thawing heated blankets can be used to thaw frozen ground, keep vehicle or equipment engines warm, and effectively melt dangerous ice dams. They provide a higher watt density and hotter temperature than the concrete curing blankets they resemble. Our patented design provides uniform heat across the entire blanket, eliminating any hot and cold spots.

Size:3'x10',3'x25',3'x4',5'x9',custom made

Color:Black, Yellow,Blue,Red,gray etc

Feature:

Heats to a preset 150°F ± 10°F / 65.5°C ±5°C

Melt snow and ice from roofs, walkways, and construction areas

Provides higher heat control when combined with a thermostatic controller.

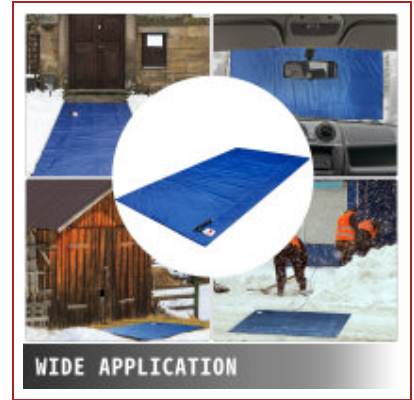

Higher watt density to thaw frozen ground at the average rate of 12"-24" every 24 hours.

High watt density; thaws a max frozen ground depth of ~ 48"

Ideal solution to help expedite the curing time of epoxy

Quickly remove frost prior to concrete pour

Saves time,money & labor,Reduces cold weather-related downtime,Easily installed and removed.
